## II.A. Uses of Education Stabilization funds by LEAs

Provide a concise narrative of how LEAs in your state have generally used Education Stabilization funds, and the impact that the funds had on elementary and secondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

**Activities conducted under the SFSF Education Fund primarily include funding teaching and other positions essential to the delivery of public education in Tennessee's K-12 systems through Tennessee's Basic Education Program funding formula.**

Please update for the new timeframe:

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of LEAs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	<b>\$337,300,000.00</b>
Contracts for construction, modernization, renovation, or repair projects:	<b>\$0.00</b>
Other:	<b>\$0.00</b>
Total:	<b>\$337,300,000.00</b>

## II.B. Uses of Education Stabilization funds by public IHEs

Provide a concise narrative of how public IHEs in your State have generally used Education Stabilization funds, and the impact that the funds have had on postsecondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

**Within the University of Tennessee system, Education Stabilization funds have been used to fund in whole or in part 22 modernization, renovation, or repair projects at 4 campuses. Additionally, Education Stabilization funds have been used to fund salaries and benefits, equipment, technology upgrades, student financial assistance, and other operating costs. At the peak, these funds allowed us to retain or create approximately 550 full-time equated personnel positions. These funds have also allowed our campuses to position themselves to fully absorb three straight years of state appropriation reductions that total approximately 20%. Details on UT contracts for construction, modernization, renovation or repair projects funded with SFSF-Education funds may be found in UT's 1511 Certification at the following link: <http://www.tennessee.edu/system/budget/stimulus.html> Within the Tennessee Board of Regents system, Education Stabilization funds have been used to fund in whole or in part 35 modernization, renovation, or repair projects at 5 universities, 7 community colleges, and 2 technology centers. Additionally, Education Stabilization funds have been used to fund salaries and benefits, equipment, technology upgrades, student financial assistance, and other operating costs. To date, these funds have created or allowed us to retain approximately 647.05 full-time equated personnel positions. These funds have also allowed institutions to position themselves to fully absorb three straight years of appropriation reductions that total approximately 29% at our universities, 20% at community colleges, and 14% at technology centers. A link to TBR's 1511 Certification document containing details on TBR contracts for construction, modernization, renovation or repair projects funded with SFSF-Education funds may be found at the following link: <http://www.tbr.state.tn.us/recovery/>**

Please update for the new timeframe:

Details on UT contracts for construction, modernization, renovation or repair projects funded with SFSF-Education funds may be found in UT's 1511 Certification at the following link: [http://www.tennessee.edu/system/budget/docs/Section\\_1511\\_Cert\\_090911.pdf](http://www.tennessee.edu/system/budget/docs/Section_1511_Cert_090911.pdf) Within the Tennessee Board of Regents system, Education Stabilization funds were used to fund in whole or in part 35 modernization, renovation, or repair projects at 5 universities, 7 community colleges, and 2 technology centers. Additionally, Education Stabilization funds were used to fund salaries and benefits, equipment, technology upgrades, student financial assistance, and other operating costs. These funds created or allowed us to retain approximately 439.83 full-time equated personnel positions. These funds also allowed institutions to position themselves to fully absorb three straight years of appropriation reductions that totaled approximately 29% at our universities, 20% at community colleges, and 14% at technology centers. A link to TBR's 1511 Certification document containing details on TBR contracts for construction, modernization, renovation or repair projects funded with SFSF-Education funds may be found at the following link: <http://www.tbr.edu/recovery.aspx> - then follow Section 1511 Certification Link (middle of page).**

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of public IHEs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	<b>\$10,334,303.76</b>
Student financial assistance:	<b>\$17,500,880.00</b>
Contracts for modernization, renovation, or repair projects:	<b>\$20,550,206.00</b>
Other:	<b>\$21,446,019.82</b>
Total:	<b>\$69,831,409.58</b>

## II.C. Uses of Government Services funds by entities

Provide a concise narrative of how entities in your State (including State agencies) have generally used Government Services funds, and how the funds have affected the State's provision of services from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

**The Government Services Fund is being used to support public safety and other government services. The funds are being utilized by the Department of Education to support and in some cases fully fund coordinated school health activities, family resource centers, K-12 teachers through Extended Teacher Contracts, school/LEA administration, School Resource Officers, and local public television stations. TDOH received funding from the ARRA State Fiscal Stabilization Fund (SFSF), funded by the US Department of Education, to stabilize state budgets and alleviate program reductions. TDOH used SFSF funding to partially or fully fund nine programs in FY10 and will use the funding for ten programs in FY11. Had TDOH not received SFSF dollars, the following programs would have been eliminated on a recurring basis beginning July 1, 2010: Epilepsy programs, Shaken Baby, state grants to the Tennessee Poison Center, Chronic Renal, Minority Health Initiatives and beginning July 1, 2011: Diabetes Prevention. The following programs would have been reduced beginning July 1, 2010: Breast and Cervical, HIV Rapid Testing, Commercial Breeders and state contracts with the metropolitan health departments. The Department of Correction has utilized GSF funds for their Community Corrections program and local housing of state prisoners.**

Please update for the new timeframe:

**The Government Services Fund is being used to support public safety and other government services. The funds are being utilized by the Department of Education to support and in some cases fully fund coordinated school health activities, family resource centers, K-12 teachers through Extended Teacher Contracts, school/LEA administration, School Resource Officers, and local public television stations. In 2011, TDOE also used Government Services Funds to fund Early Intervention Services for children with disabilities. TDOH used SFSF funding to partially or fully fund nine programs in FY10 and used the funding for ten programs in FY11. Had TDOH not received SFSF dollars, the following programs would have been eliminated on a recurring basis beginning July 1, 2010: Epilepsy program grants, the Shaken Baby Syndrome program, state grants to the Tennessee Poison Center, the Chronic Renal Disease program, and Minority Health Initiatives. These programs would have also been subject to elimination on July 1, 2011 without the use of SFSF funds. In addition, the Diabetes Prevention and Health Improvement program would have been eliminated beginning July 1, 2011 without the influx SFSF funds. The following programs would have been reduced beginning July 1, 2010 and functioned at a reduced level continuing into fiscal year 2011 beginning on July 1, 2011: Breast and Cervical Cancer Screening program, HIV Rapid Testing programs, the Commercial Breeder program, and state contracts with the metropolitan health departments.**

Estimate the total amount of Government Services funds that the State has drawn down on behalf of its subrecipients, from October 1, 2010 to September 30, 2011, under the following categories:

Elementary and secondary education (excluding construction, modernization, renovation, or repair of public school facilities):	<b>\$43,264,930.70</b>
Construction, modernization, renovation, or repair of public school facilities:	<b>\$0.00</b>
Modernization, renovation, or repair of public IHE facilities:	<b>\$0.00</b>
Public IHEs (excluding modernization, renovation, or	<b>\$0.00</b>

repair of public IHE facilities):	
Public safety:	<b>\$0.00</b>
Public assistance:	<b>\$0.00</b>
Transportation:	<b>\$0.00</b>
Other:	<b>\$7,702,461.72</b>
Total:	<b>\$50,967,392.42</b>

### III.A. & B. Tuition and Fees

Describe any actions taken by the State to limit increases in tuition and fees imposed by public IHEs for in-State students:

Entry from previous timeframe:

**With regard to the UT system, SFSF Education funds have allowed our campuses to position themselves to fully absorb three straight years of state appropriation reductions that total approximately 20%, limiting necessary tuition and fee increases. With regard to the Tennessee Board of Regents system, SFSF Education funds have also allowed institutions to position themselves to fully absorb three straight years of appropriation reductions that total approximately 29% at our universities, 20% at community colleges, and 14% at technology centers, limiting necessary tuition and fee increases.**

Please update for the new timeframe:

**With regard to the UT system, SFSF Education funds have allowed our campuses to position themselves to fully absorb three straight years of state appropriation reductions that total approximately 20%, limiting necessary tuition and fee increases. With regard to the Tennessee Board of Regents system, SFSF Education funds allowed institutions to position themselves to fully absorb three straight years of appropriation reductions that total approximately 29% at our universities, 20% at community colleges, and 14% at technology centers, limiting necessary tuition and fee increases.**

For each 2- or 4-year public IHE, please provide the tuition and mandatory fee amounts for in-State students for school years 2008-2009, 2009-2010, and 2010-2011:

Data should be provided for all four-year and two-year public IHEs. Private IHEs should not be included.

#### IV. Tax Increases Averted

Estimate the degree to which State tax increases were averted because of the availability of SFSF funds.

Entry from previous timeframe:

**It is believed that there would have been no tax increases in the absence of SFSF funds. The following chart provides a general description of whether and how SFSF-supported services and activities would have been supported with State funds if there had been no State Fiscal Stabilization Funds: Services / Activities SFSF Funds Allocated\* State funding alternatives Education Stabilization Funds: K-12 Education (Primary Funding Formula) \$527,707,300 FY 2009: Would have been funded; the State's Rainy Day Fund balance would have been lowered. FY 2010 and 2011: Likely to have been fully-funded, in which case, other areas of state government would have been reduced and/or the Rainy Day Fund would have been utilized as a source of funding. The other alternative, while not very likely, would have been to pro-rate the funding formula, resulting in decreased funding to LEAs. Higher Education (Public IHEs) \$247,427,700 Would not have been funded. While no SFSF funds were allocated in FY 2011, State non-recurring funds were appropriated in an amount that would have exceeded any SFSF funds that would have been required. In the absence of SFSF, those non-recurring state funds would not have been appropriated. Government Services Funds: Department of Education \$109,053,600 Services likely would have been funded, in which case, other areas of state government would have been reduced and/or the Rainy Day Fund would have been utilized as a source of funding. Department of Health \$16,500,800 Services likely would have been funded, in which case, other areas of state government would have been reduced and/or the Rainy Day Fund would have been utilized as a source of funding. Department of Correction \$46,908,600 Services likely would have been funded, in which case, other areas of state government would have been reduced and/or the Rainy Day Fund would have been utilized as a source of funding. \* Amounts are a cumulative total of fiscal years 2009 through 2011.**

Please update for the new timeframe:

## **V. Jobs Saved or Created**

In its quarterly reports submitted under section 1512 of ARRA, each State provided data on, among other things, the number of jobs estimated to have been saved or created as a result of SFSF support. The Department will use the information that has been reported to determine the number of jobs that have been saved or created. For the purposes of the Initial Annual Report, the State is not required to provide any additional information on the number of jobs estimated to have been saved or created.

Jobs Reported Saved or Created in the First APR:

	<b>Reported Jobs for 02/17/09 - 09/30/09</b>	<b>Reported Jobs for 10/01/09 - 12/31/09</b>	<b>Reported Jobs for 01/01/10 - 03/31/10</b>	<b>Reported Jobs for 04/01/10 - 06/30/10</b>	<b>Reported Jobs for 07/01/10 - 09/30/10</b>
<b>Education Grants</b>	2,011.39	4,701.78	4,706.82	4,843.69	6,782.36
<b>Government Services</b>	1,563.18	1,737.01	1,740.34	1,786.31	433.5

Jobs Reported Saved or Created in the Second APR:

	<b>Reported Jobs for 10/01/10 - 12/31/10</b>	<b>Reported Jobs for 01/01/11 - 03/31/11</b>	<b>Reported Jobs for 04/01/11 - 06/30/11</b>	<b>Reported Jobs for 07/01/11 - 09/30/11</b>
<b>Education Grants</b>	6203.61	6095.69	185.26	61.32
<b>Government Services</b>	1347.46	1690.82	1713.25	5.88

## **VI. Progress in Advancing Education Reform**

### **A. Reducing inequities in the distribution of highly qualified teachers:**

Describe the steps that the State has taken, from October 1, 2010 through September 30, 2011, to reduce inequities in the distribution of highly qualified teachers.

Entry from previous timeframe:

Central to Tennessee's plan to more equitably disperse educators is the new educator evaluation system in development. Starting in July, all schools and districts will be able to identify the most effective and least effective educators based in 50% on student performance data. This new system will be a cornerstone to allowing districts to identify and place the best teachers in highest need schools. Contracts were finalized with Teach for America and New Teacher Project to increase the number of high quality teachers next school year. Battelle for Kids facilitated training across the state in strategic compensation models for all local education agencies (LEAs) to attend. Battelle also worked with Department field service staff to train on resources available from Battelle and Battelle field staff for use this semester. Department staff worked to plan the competitive process for high need LEAs to receive support from the Distinguished Professionals program next year which will place experts in the classroom in high needs areas. Also, Tennessee finally released the list of schools not making Adequate Yearly progress (AYP) this month for the 2009/10 school year. The new schools on the list will receive funds for part of this school year if they qualify as Focus or Renewal schools. Department staff is planning a new round of School Improvement Grants to support the most high need schools. TDOE staff analyzed school data around middle grades math performance in order to target Race to the Top resources to the schools in greatest need as part of the STEM projects. Plans were made to meet with ETSU and Tennessee State University in early February to ensure the schools targeted in the SITES-M program were being maximized. Also in 2010, 70 new Tennessee teachers earned National Board Certification. With a 17.2% percent increase in the number of teachers who achieved certification over last year, to date 483 Tennessee teachers have undergone a stringent, voluntary process to meet National Board Certification requirements. In a step targeting struggling schools, four school systems will receive Innovation Acceleration Fund grants to assist in designing and/or implementing alternative salary schedules. Building on initiatives in First to the Top to increase educator effectiveness through innovative compensation structures, newly adopted alternative salary schedules will reward teachers and principals for their ability to increase student achievement levels. Race to the Top funds supply the competitive Innovation Acceleration Fund with a total of \$12,000,000, to be dispersed over the course of a 1-year planning period and 3-years of implementation in awarded school systems. TDOE also announced that three school systems will receive funding as part of the Teacher and Principal Residency Competitive Grant. As part of the First to the Top initiative, systems will work to increase and retain the number of well prepared and effective teachers and principals to address local school-based needs and encourage student achievement. Interested school systems applied for program focused grants geared toward pre-service preparation, advanced training and professional development, and/or supporting exemplary leaders.

Please update for the new timeframe:

**Tennessee sits at a critical juncture in education. As the first winner (along with Delaware) of the Race to the Top competition, we have a compelling vision, plan and goals designed to make our state the fastest improving state in the country in educational outcomes. We have, over the last two years, made a number of critical changes and commitments that are foundational for our efforts to improve outcomes for children. We significantly raised academic standards, thereby ensuring that our state proficiency rates paint a realistic picture of college- and career- readiness. We committed to use data and qualitative assessments to evaluate teachers and principals and have begun implementation statewide, in an effort to provide meaningful feedback to improve instruction. We agreed to implement the Common Core standards to ensure even more rigorous coursework over time. We created an Achievement School District to work in our chronically lowest performing schools. We took multiple steps to create additional high performing schools, including the creation of exemplar STEM academies and associated regional hubs; lifting the cap on charter schools;**

and using distance learning to provide geographically isolated students access to rigorous high-level coursework. These initiatives are foundational to the state's winning Race to the Top plan. Over the past year, Tennessee has focused its efforts on four primary efforts – the implementation of Common Core standards, teacher and principal evaluation, the Achievement School District and the state's new accountability system under flexibility from the Elementary and Secondary Education Act. The state has spent the last six months developing its implementation plan for the common core state standards (CCSS). An overall plan and strategy have been developed and communicated broadly across the state. The state has also developed a more detailed plan for the rollout of the first phase of the CCSS: grades 3-8 in math. Tennessee is nearing the end of its first year implementing the TEAM evaluation model. Throughout the course of this year, Department of Education staff and TEAM consultants have been working with districts to provide training and support on using the rubrics, entering data into the data system, choosing the 15% achievement measure, and general support on implementation. Over the last several months, the ASD has outlined its revised strategy and goals, including a feeder pattern placement strategy to ensure a consistent experience for students as they transition from elementary to middle school, and middle to high school, and a goal of moving its schools from the bottom 5% to the top 25% over five years. To execute against this plan, the ASD has begun rapidly staffing up its central office to build capacity. The ASD has announced the 6 schools that would be part of its district next year. As part of the implementation of the state's new accountability system, Tennessee set rigorous proficiency goals to measure progress as a state, and used those proficiency goals to set LEA targets. These goals represent significant, steady growth in student achievement that would change Tennessee's educational trajectory as a state. We have proposed increasing our reading and math proficiency rates by around 20 percent over a five year arc, and growing graduation rates to 90 percent while simultaneously increasing course rigor. These are goals that our 136 superintendents believe in and can manage against. They meet our LEAs where they are, rather than forcing an arbitrary framework on them. They call upon each LEA, each school, to grow from its current starting point, continuously improving each year until we, across 1,700 schools serving 950,000 students, achieve the fastest rate of improvement in the country.

### Certification of review of submission
